JUANJE DJ

More than three decades inside hard-music culture

HARD MUSIC SINCE 1993

DJ since 1993, Juanje DJ has built a career through radio, clubs, competitions and events across Spain and southern France. His musical identity spans Hardcore, Hard Techno, U.S. Hardhouse, Hardstyle, Hard Dance, Rawstyle and hard-edged Remember. His sets are defined by epic development, in-crescendo construction, demanding mixes and an intentionally unpredictable selection.

Thousands of hours behind the decks are backed by technical knowledge of DJ systems, acoustics, electronics and audio technology. During the formative years of the Spanish Hard scene, access to imported records and a collection exceeding 5,500 vinyl records became part of his musical identity.
